Construction Area (m ²):	970 000
Construction Cost (Million MOP\$):	n/a

The Venetian Macau, Cotai Resort Development is one of the world's largest construction projects as well as the world's largest casino.

The complex comprises more than 350 shops of premium retail set in elegant streetscapes reminiscent of Venice, with canals and gondolas, as well as over 100 000 m² of convention, exhibition and meeting facilities, over 30 world-class restaurants, and a 15 000 seat Venetian Arena that can be configured to hold events of any type. Above the casino and the shopping arcade, resides a 32 storey tower with 3 000 suite hotel rooms. The external facades were modeled after actual buildings in Venice.
