PROJECT

Status:	Completed
Contractor:	Omas Construction, Ltd.
Site Area (m ²):	18 660
Construction Area (m ²):	183 835
Construction Cost (Million MOP\$):	1 000

This 34 floors housing block consists of a podium of 3 floors and 5 towers of residential towers above it. It caters a total of 930 apartments, commercial areas, community services centers and a large carpark in the bottom three floors.

Aside from the attracting sea-view which users can enjoy from most of the apartments in the building, a main focus of this housing block will be the well-planned landscaped garden on the podium level and the variety of entertainment/sports facilities. They include a clubhouse, a swimming pool, a basketball court, a badminton court and childrens'playground.
