About us

A WIDE RANGE OF SERVICES

Based upon a core of seasoned professionals with extensive and diverse local, regional and international experience, MPS has provided a wide range of services on several major local projects.

VALUE-ADDED SERVICES

From buildings to bridges, from urban planning to project management, from the simplest to the most complex assignment, MPS aims to offer the best possible value-added professional services to clients.

RESPOND TO THE NEEDS

MPS's professionals have the thorough understanding of local market conditions, applicable building and construction Laws, Codes and Regulations, so that we respond to the needs of local and international developers.

Our Services

DESIGN RELATED

Provision of Design Services for any kind or size of constructions, being residential, commercial, industrial, sport, educational or entertainment, by the client's requirements and relevant codes and regulations, including Narratives, Drawings, Plans, Details, Specifications and Technical Assistance during Construction Stage.

SITE SUPERVISION

Provision of Technical Director Services (Responsible Engineer for the Project Construction) according to Article 18° of Decree-Law 79/85/M (RGCU) to ensure the site construction works are per the relevant construction codes and regulations also to ensure compliance with DSSOPT's instructions.

PROJECT MANAGEMENT

Provision of Project Management Services in accordance with the client's requirements since the starting of each project, to act on behalf of the client on the procurement and appointment of the Designer, QS and contractor and follow up its execution until completion of the project.
