CESL Asia signed an agreement with EREN Group, which focuses on developing innovative technologies to conserve natural resources and limit CO2 emissions.

This partnership will promote ACCENTA, a proven AI technology, and improve the quality of service provided by FOCUS, a subsidiary of CESL Asia, as António Trindade told TDM.

António Trindade is pleased with the company's 35 years of activity and stresses that CESL Asia is committed to contributing to the development of Macau. António Trindade also says that Macau should focus on sustainability.
